

Technology and Engineering Management

MSRSAS has introduced a specially designed Corporate M.Sc. course titled as M.Sc. [Engineering] in Technology & Engineering Management to help the industry to upgrade their engineers. The school has a repository of more than 160 modules of M.Sc [Engg.] and MBA courses. The client can choose any 10 modules or it may request to develop specialized modules of their interest for the course.

A batch of minimum 15 engineers is necessary to offer this courses. The courses will be delivered at the client's place through part-time mode.

Currently several such courses are offered at clients place.
